

My Way

Bazanji

People talk a lot when they never got something good that they say
I just leveled up and I never stop for nobody that's in my way
They been watching me and they tryna say that my plays have all been fake
I just came back from that Eurotrip, I've been living out a suitcase
I got real problems that I deal with
I seen adults acting like children
I got no time to go back and forth with people caught in their feelings
I been focused on myself
I been focused on my health
I been making moves I don't advertise cuz I know that time will tell, yeah

I know how it goes, I know how it goes down
Everybody knows, everybody knows now
Moving on my own, moving on the low now
I don't need no help, I don't need no handouts
Look out
See me
My life
Movie
I be
Lowkey
Don't lie
To me
Always
On top
No way
I stop
All day
I play
Got it
My way

Lately my mind has been racing
Tryna avoid all the fake shit
People be coming from all different angles I gotta just stay in the basement
Keeping my head down putting work in now my life is amazing
I'm never gon settle for less than I wanted I know that I can't get complacent
People be talking bout me but they never met me man that shit is so crazy
I don't need nobody tryna take credit for everything I'm doing lately
Know that I heard about it but I'm living it now
Guess that I gotta just let it go now
I'll never slow down
I'm making the younger me proud, aye

I know how it goes, I know how it goes down
Everybody knows, everybody knows now
Moving on my own, moving on the low now
I don't need no help, I don't need no handouts
Look out
See me
My life
Movie
I be
Lowkey
Don't lie
To me

Always
On top
No way
I stop
All day
I play
Got it
My way
