

No Lie

Bazanji

She's a pretty girl, got me feeling like I made it
You know I hold her down, yeah I got her situated
I don't know how to say it, only miss you when I'm faded
Baby girl that's no lie, no lie

She's a pretty girl, got me feeling like I made it
You know I hold her down, yeah I got her situated
I don't know how to say it, only miss you when I'm faded
Baby girl that's no lie, no lie

Yeah, girl I know you a model, I know you feel entitled
Cuz everybody gas you up, you like it full throttle
But that ain't how I'm movin', I'm not like these other men
Let's just make a movie, me and you, we keep it off the Gram
I could really tell you how I'm feeling
But I think that we would be better off without revealing
I don't want you to take it up the wrong way
I won't make the wrong play
Baby go and buss it down for me, yeah

She's a pretty girl, got me feeling like I made it
You know I hold her down, yeah I got her situated
I don't know how to say it, only miss you when I'm faded
Baby girl that's no lie, no lie

She's a pretty girl, got me feeling like I made it
You know I hold her down, yeah I got her situated
I don't know how to say it, only miss you when I'm faded
Baby girl that's no lie, no lie

Yeah, I put my trust in you, I paid in all my dues
But you be tryna tell me that it ain't enough for you
I know the deal, you be tryna make me feel
Like I got somebody else I'm giving my attention to
Baby slow it down for me, just slow it down for me
Think about when I go out my way to hold it down for you
This ain't a forever thing, live it in the moment
I feel it every time when I wake up in the morning, I say

She's a pretty girl, got me feeling like I made it
You know I hold her down, yeah I got her situated
I don't know how to say it, only miss you when I'm faded
Baby girl that's no lie, no lie

She's a pretty girl, got me feeling like I made it
You know I hold her down, yeah I got her situated
I don't know how to say it, only miss you when I'm faded
Baby girl that's no lie, no lie
