

No Problems

Bazanji

We don't got no problems over here
The money looking right
All my boys they good for life, yea
We been balling every single year
Couple thousand for the night
We not ever switching sides, yeah
They keep talking bout me over there
We don't ever let it go
We don't need em anymore, yeah
Now I always gotta make it clear
I been doing all I know
I done made it on my own yeah

Took a break like 6 months I came back and I still got it
I be like their favorite show cuz everybody been binge watching
I be on the next episode my life a movie, I been popping
I give it back to the fans cuz they love the shit that I been dropping
I know
Said I don't wanna famous
Promise I'll never be changing
Everyone asking bout favors
We haven't spoken in ages
Top 5 in my town
Now they coming around
Never bringing me down
Built it up from ground
Now they asking me how
Wow
More money more problems
Every time I been solving
Whole time I been all in
No surprise I be balling
All hundreds like Blueface
I been making a new wave
Only speaking that boss talk don't take L's like Cool J
Keep it down for that woo woo
They my brothers no new new
Used to ask like who you
Now they watching like Hulu
Turn the boy to a man now
Couple mil in my plan now
Making noise when I walk through
Don't follow up if they fall through

We don't got no problems over here
The money looking right
All my boys they good for life, yea
We been balling every single year
Couple thousand for the night
We not ever switching sides, yeah
They keep talking bout me over there
We don't ever let it go
We don't need em anymore, yeah
Now I always gotta make it clear
I been doing all I know
I done made it on my own yeah

(Yeah, yeah)

Thought about it like day and night
I'm raging now like Kid Cudi
Finally got that last laugh
They always said that I been funny
Used to work the cash register now all I do is just stack money
You real stupid tryna test me
No wonder why you a crash dummy
People hate but they don't listen
I been giving out free lessons
How to boss up real quick
What you want in life
That's a real question
Time is money I know
My watch never been froze
I keep seeing the highs
Cuz I don't forget my lows
I done
Came in the game and I'm doing the most
I don't forget when I used to be broke
Work everyday like there ain't anymore
Soon as I graduate doing a tour
Know that I still got a long way to go
Thinking bout selling out every show
Planted a seed it been grown
I say facts and that's been known
Ok
Who you know got it like me
Who you know working at bedtime
Drinking red wine
On an airline
With a notepad
Writing new lines
Till the plane land
In Dubai
Every day is a new sky
30,000 feet off the ground I'm passing out that's a new high

We don't got no problems over here
The money looking right
All my boys they good for life, yea
We been balling every single year
Couple thousand for the night
We not ever switching sides, yeah
They keep talking bout me over there
We don't ever let it go
We don't need em anymore, yeah
Now I always gotta make it clear
I been doing all I know
I done made it on my own yeah
