

Not Enough

Bazanji

Yeah

Nobody doing it better than us
Travel the world I been living it up
Man in the mirror that's who I can trust
Stick to the plan and I never adjust
I seen the hate and I seen the love
Keeping it real we callin' their bluff
I just been counting up
One milli, two milli, three
But it's still not enough

Already knew what I wanted
I went and I got it
Lately I feel like I'm being too modest
I'm talking my talk
Just keeping it honest
They not on my level
I can't even bother
To give 'em my time
Or give 'em a dollar
They think they're artists
But really they not
You know I write it, produce it, record it
I'm doing it all
The rollie got diamonds they dancing
I'm tryna cop a new mansion
The labels be holding them ransom
Do what they're told, I cannot imagine
I put myself in position
And I still remember when nobody listened
Came a long way but I'm still on a mission
To be at the top, I know Imma get it

Yeah

Nobody doing it better than us
Travel the world I been living it up
Man in the mirror that's who I can trust
Stick to the plan and I never adjust
I seen the hate and I seen the love
Keeping it real we callin' their bluff
I just been counting up
One milli, two milli, three
But it's still not enough

I get what I'm owed
The better the journey the longer the road
Never been one that'll fold
Standing up tall
This is the life that I chose
I had to do it the way that I wanted
I can't let nobody take credit for nothing
If you weren't there in the darkest of moments
Then you won't be there
When the blessings are coming
I really be living this
And I never got time to reminisce
Imma keep it on go

That's all that I know
I don't take breaks, I'm different
I'm ready for my time
I put in that grind
I'm winning the 'ship like Michigan
I'm lookin' around
And don't see nobody
Doing that work I'm putting in
I know

Yeah
Nobody doing it better than us
Travel the world I been living it up
Man in the mirror that's who I can trust
Stick to the plan and I never adjust
I seen the hate and I seen the love
Keeping it real we callin' their bluff
I just been counting up
One milli, two milli, three
But it's still not enough
