Aye, aye

Big dog
Step in the booth with a mink on
They tryna do what I been on
Bet on myself never been wrong
And if you don't fuck with me now
Then don't come around later
A fan in disguise
I call that a hater
They don't got talent, they tryna be famous
I let music do all the explaining
I remember tryna make ends meet
Now I'm making bread in my sleep
Paid my dues this game not free
And if they mad they gon' hate on me
They got a heart full of jealousy
I'm in the zone I'm protecting my energy
Proud of myself cuz I got a good head on me
This wasn't luck, nah this shit was meant to be, yeah

I been on 10
They been on E
Everyone 'round me count on me
All of my homies ROD
Gettin' that dough that's all I see
I been on 10
They been on E
Everyone 'round me count on me
All of my homies ROD
Gettin' that dough that's all I see
