

# Run It Up

Bazanji

Yeah  
Went through the battle and I made it out  
I was all alone  
If I didn't give it a try  
Then I would've never known  
I still remember they told me  
That I wasn't good enough  
Finally got what I wanted  
Now I'm 'bout to run it up  
Run it up

Always be working I won't take a day off  
Look at my bank and it's starting to pay off  
People been looking for me like a radar  
They want my spot but I won't give it to 'em  
I been too focused on business I'm doing  
I take the good with the bad and the bad with the good  
Cuz I can't be picking and choosing  
I been a, I been a  
I been a boss  
Nobody, nobody  
Cutting me off  
We used to go window shop at the mall  
Now I just go and I'm buying it all  
Whatever, whenever, no matter the cost  
I'm making up for the time that I lost  
Locked in the studio day after day  
But I had make it before I could ball  
C'mon

Yeah  
Went through the battle and I made it out  
I was all alone  
If I didn't give it a try  
Then I would've never known  
I still remember they told me  
That I wasn't good enough  
Finally got what I wanted  
Now I'm 'bout to run it up

I put my ego aside  
I always remember when I used to try  
To get to the point that I'm at  
Now I be keeping it going it ain't no surprise  
I'm running, I'm running it  
I still got a lot left to give  
Back to the lab I be cooking up hits  
Step to the plate and I'm never gon' miss  
I won't ever quit  
I'm way too competitive  
And I want it all not a little bit  
You coming for me and I'm well equipped  
Cuz I'm not the one to be messing with  
Now I put the weight of the world on my shoulders  
Know that I got it, I keep my composure  
I see the top and it keep getting closer  
I'm on the way and they know that I'm here to takeover

Yeah  
Went through the battle and I made it out  
I was all alone  
If I didn't give it a try  
Then I would've never known  
I still remember they told me  
That I wasn't good enough  
Finally got what I wanted  
Now I'm 'bout to run it up
