

# Runnin'

Bazanji

I got my city on lock  
I got the internet buzzing  
Every song that I drop  
You got the firemen coming  
Bringing the heat with the CD  
When they see me wanna be me  
Better believe that I be free  
In a big league, not pee wee  
And I got cheese like Cicis  
I'm never gon' flop  
Looking back down from the top  
Never caught up on the loss  
Balling 'cause I been the boss  
The follow me like I'm the law  
Put all the weight on my back  
Gon' be a legend like my name is Shaq  
Gon' be a funeral when I attack  
So watch how you act  
They never thought I could've rapped, damn  
I'm one of a kind, that's something  
Texas Hold'em, not bluffing  
I'm a diamond in the rough and  
I'll never be tripping on nothing  
They betting on me like bitcoin  
They wanting a steak like Sirloin  
But I be playing for keeps though  
I'm stacking up green like Cee-Lo  
I'm sorry, but I had to vent  
Too many things to get off of my chest  
2018 gon' be bringing more stress  
I gotta be ready to handle the mass  
Cleaning it up like a busboy  
But you gon' find me in a Benz though  
All these rappers tryna flex though  
But we know that it's a rental

They don't wanna love me 'til I'm winning  
They can't really block me from my vision  
I'm just tryna get it how I want it  
Now they want me back, but you know that I'll be  
Running, running, running, to another level  
Running, running, running, I won't ever settle  
Running, running, running, I'ma go and get it  
Running, running, running, I'm coming for the medal  
Running, running, running, to another level  
Running, running, running, I won't ever settle  
Running, running, running, I'ma go and get it  
Running, running, running, I'm coming for the medal

Don't care if you hate it  
I will never be stopping  
Real fans gon' play this  
And I got the bass knocking  
Knocking on that front door  
'Cause I'm 'bout to hit a lick though  
Going straight to the top floor  
Got 'em jumping out the window

I don't need no label  
No seats at my table  
I don't need no handouts  
'Cause the money been stable  
Get ready if you check me  
'Cause I'll kill you on the beat though  
Man, this shit too easy  
Like I'm shooting some free throws  
KD with the three tough  
Sleight of hand with the reload  
I been popping off worldwide  
Can't oversee me though  
Swagytracks got my back though  
Best fans, that's facts though  
I been going in full speed  
Other rappers get lapped though  
DiCaprio when I rap though  
Catch me if you can, hoe  
No friends in the rap game  
This shit been cut throat  
Find me in the air zone  
Your girl told me you're friendzoned  
You're childish like Redbone  
I got bars like cellphones

They don't wanna love me 'til I'm winning  
They can't really block me from my vision  
I'm just tryna get it how I want it  
Now they want me back, but you know that I'll be  
Running, running, running, to another level  
Running, running, running, I won't ever settle  
Running, running, running, I'ma go and get it  
Running, running, running, I'm coming for the medal  
Running, running, running, to another level  
Running, running, running, I won't ever settle  
Running, running, running, I'ma go and get it  
Running, running, running, I'm coming for the medal  
(For the medal, for the medal, for the medal)
