

Talkin' Bout

Bazanji

I ain't playing games right now, this the real life
Let me tell you what it feel like
I ain't waiting for the green light
Everybody got something they say
I tell 'em what it be like, yeah
Been on 10, what you talkin' bout
Still same friends, what you talkin' bout
Got the new Cayenne, what you talkin' bout
If it ain't about the bands, what you talkin' bout

Me and my boys break bread, yeah we toasting
Boutta cop a new crib, put it on the ocean
Baz on the beat, every time I be floating
I don't let the hoes in
They messing up my motion, yeah
I ain't ever have another Monday
Turn it to a weekend, living on the runway
Tryna cross me but I'm moving in a one-way
Never in the same lane, you moving in a Hyundai
Yeah, aye, only foreign
Gotta new chick, I don't tell her we going
Ice keep dripping so the money keep growing
If you ain't with the shit then you better keep it rollin'

Yeah this the real life
Let me tell you what it feel like
I ain't waiting for the green light
Everybody got something they say
I tell 'em what it be like, yeah
Been on 10, what you talkin' bout
Still same friends, what you talkin' bout
Got the new Cayenne, what you talkin' bout
If it ain't about the bands, what you talkin' bout

Yeah, cut the talking
I'mma get the bag, you can put my name on it
I'mma cop a Brinks, I'mma make a big deposit
Everybody talking like they got it but they really lost it now, woah
People acting real but you never really know
I just took my talent to the beach like the goat
Spit a lotta game but I got it for the low
I'mma stay the same but I keep it on the go
Yeah, what they talking bout
Look at everything I overcame even through the doubt
Everybody wishing I would stay but I'm out
Never changed for the clout
I ain't scared of missing out, no

Yeah, this the real life
Let me tell you what it feel like
I ain't waiting for the green light
Everybody got something they say
I tell 'em what it be like, yeah
Been on 10, what you talkin' bout
Still same friends, what you talkin' bout
Got the new Cayenne, what you talkin' bout
If it ain't about the bands, what you talkin' bout
