

# This Feeling

Bazanji

I been doing things  
That they told me I should never do  
I been doing things  
That they told me I could never do now  
Never do  
I could never do  
I been looking back  
And I'm the only one who ever knew

My dreams began to turn out  
I told to miss my turn out  
They in the club  
And I'm in the studio  
Guess they gonna learn now  
Told myself, I want it all  
Gotta get it on  
Never gonna burn out  
I been busy working  
You busy flirting  
Guess you get what you deserve now  
Woah

Know that I been waiting for so long  
You're all that I see (You're all I see girl)  
I can't stop this feeling, oh no  
Its taking over me (Its taking over)

I feel your bassline  
Yeah I feel your rhythm  
You got my heartbeat pumping

I can't fight this feeling  
Swear to God I'm going crazy  
Stood here reminiscing  
'Bout the times I called you baby  
But lately its all changing girl  
Your tweets they just don't phase me  
Like they used to nah, like they used to nah  
Cause I've been in the studio working  
You all up on my gram acting basic  
I can see you in the comments flirting  
You ain't the same, so I had to go and face it  
Feeling like a new man  
When you broke it off  
And now you want me back  
But the hope is gone  
This rap shit is all I ever focused on  
Swear that I'm gonna make it and it won't be long, like

Know that I been waiting for so long  
You're all that I see (You're all I see girl)  
I can't stop this feeling, oh no  
Its taking over me (Its taking over)

I feel your bassline  
Yeah I feel your rhythm  
You got my heartbeat pumping
