

## Turn It Up

Bazanji

Turn it up, turn it up  
When I come through the spot  
Turn it up  
When I whip drop top  
Turn it up  
Whole squad when I roll through  
What we gon do  
Turn it up, turn it up  
Put the stars in the roof  
Turn it up  
In my city I'm the truth  
Turn it up  
Whole squad when I roll through  
What we gon do  
Turn it up

I was gone for a minute I was country hopping  
Paris to the UK yeah we get it popping  
Everywhere I go know that I got many options  
And I'll never stop till they put me in a coffin  
Back back to the beats I been getting on  
They been busy tryna catch me I'm already gone  
Anything I drop is your favorite song  
Your girl asking bout my scent, that's the Saint Laurent  
Pick a time, pick a place  
I been flying over states  
I been hiding away  
Putting rhymes over bass  
Every day I been switching up my time zone  
I been running through the game that's a milestone  
I been sticking to ya ear like an iPhone  
Everybody tryna ride the wave that I'm on  
I been at it 6 years never looking back  
Feeling all my tracks in their chest like a heart attack  
Find me in the end zone like a running back  
You been in the friend zone, good luck with that  
I be buying women gifts if they acting right  
Beautiful lady with dreams that's a good night

Turn it up, turn it up  
When I come through the spot  
Turn it up  
When I whip drop top  
Turn it up  
Whole squad when I roll through  
What we gon do  
Turn it up, turn it up  
Put the stars in the roof  
Turn it up  
In my city I'm the truth  
Turn it up  
Whole squad when I roll through  
What we gon do  
Turn it up

I was gone for a bit now I'm back again  
Still got my middle finger to the middle man

They been tryna cool me down like a ceiling fan  
I just iced out my wrist like an avalanche  
Only 3 months got a couple hundred grand  
Even when I fall asleep I be making bands  
Still a rookie but I'm playing like a veteran  
Keep on getting wins it'll never end  
One year till I'm graduating  
I gotta have new whip and a mansion waiting  
Now I'm about to cut ties cuz they still be hating  
I'm tired of helping people out who don't appreciate it  
Damn  
I'm done thinking bout what they think about  
Cuz they ain't ever try to come help me out  
Still got the same ones that I keep around  
Never switching up, always hold it down  
We not in the same shoes they be lyin  
I'm breaking outta your shoes like Zion  
You ain't thinking big enough why you trying  
You ain't put in any work why you crying

Turn it up, turn it up  
When I come through the spot  
Turn it up  
When I whip drop top  
Turn it up  
Whole squad when I roll through  
What we gon do  
Turn it up, turn it up  
Put the stars in the roof  
Turn it up  
In my city I'm the truth  
Turn it up  
Whole squad when I roll through  
What we gon do  
Turn it up
