

WHY?

Bazanji

(Hehehe)

Why you gotta
W-why you gotta
W-why you gotta

Why you gotta do me like that
Why you gotta do me like that
Why you gotta use me like that
Why you gotta use me like that
Why you gotta do me like that
Why you gotta do me like that
Why you gotta use me like that
Why you gotta use me like that
Yeah!

Ok, you know me, you owe me
All of the time you told me, you show me
All of the ways you grow me, you for me
When I got money, you hold me
But I know its phony, you faking
Then we texting, you flaking
Told myself to be patient
An now my whole body aching
And I be going to get it along
Knowing a way and I'm ready to go
Knowing I never be ready to slow
Knowing the money is ready to blow
Knowing I never been telling no lies
Knowing I never gon' show a disguise
Hit up a 8 Bone and I be in the skies
I just got hope that nobody dies
I been working, no lurking, I'm merking
Tracks in and I'm certain
I'm curving, full on disturbing
I'm busy, who with me?
I got no time for burdens I'm burnin'
See the top and I'm flirting
But I'm thinking bout the time I could've had it
I been wonderin'

Why you gotta do me like that
Why you gotta do me like that
Why you gotta use me like that
Why you gotta use me like that
Why you gotta do me like that
Why you gotta do me like that
Why you gotta use me like that
Why you gotta use me like that
Yeah!

Almost famous, almost known
Always out on my own
Yeah, on the grind like every night
Can't take me out of my zone, yeah
Planned this all at 15
20 now and it came true
Killing every track, killing every verse

That's just what it came too
Every city we ran through they wanted more
Groupie girls wanted to settle down
But I just ignore
Sorry babe gotta fade away
Making noise I gotta 808
I can't help if you fall in love
Can't stay around gotta get away
Don't hit me up, last year you turn me down
Ever since you saw my name in lights
You came around
Why you do me like that?
Yeah, tell me why you do?
Why you do me like that?
Yeah, tell me why you do?

Why you gotta do me like that
Why you gotta do me like that
Why you gotta use me like that
Why you gotta use me like that
Why you gotta do me like that
Why you gotta do me like that
Why you gotta use me like that
Why you gotta use me like that
Yeah!
