

# Winning Time

Bazanji

I remember when I came from the bottom I wanted to shine  
I remember when they said that I couldn't I told em they lying  
I remember I would always be thinking ahead of my time  
Gave it my everything, all I could do is go put in the grind

Now that I made it  
I'mma keep winning I'm never too jaded  
Been through it all and I been underrated  
I put in the work and I'm never complaining

Who gon' stop me now?  
Who gon' stop me now?  
They can't knock me off my grind  
When I step up to the line  
It's winning time  
It's winning time  
It's winning time  
It's winning time

I been waiting for this moment  
I been grinding all my life  
Everything I touch is golden  
All I really want to know is

Who gon' stop me now?  
Who gon' stop me now?  
They can't knock me off my grind  
When I step up to the line it's

I leveled up  
Mission to complete  
When my time is up  
I know I leave a key  
From the bottom to top to create a legacy  
Nobody can ever stop me

I'm on the next level, I'm too invested  
Lights on and I feel electric  
Let em know I'm not the one to mess with  
Always ready, I'm at my best  
And I can't stop it's my time  
See my name when the lights shine  
All the glory I'm ready for  
I need it now like a lifeline  
Feel the rush all in my veins  
Had to grow from all the pain  
Made my way to the main stage  
Can't go back cause time's changed  
I been ready for the bigger moment  
I remember when they didn't notice  
Use it all as my fuel now  
It's given me a whole nother motive  
Going down as legendary  
Time is coming, it's getting scary  
This ain't luck, it's hard work  
And I was born ready

Who gon' stop me now?  
Who gon' stop me now?  
They can't knock me off my grind when I step up to the line  
It's winning time  
It's winning time  
It's winning time  
It's winning time

I been waiting for this moment  
I been grinding all my life  
Everything I touch is golden  
All I really want to know is  
Who gon' stop me now?  
Who gon' stop me now?  
They can't knock me off my grind  
When I step up to the line it's

I leveled up  
Mission to complete  
When my time is up  
I know I leave a key  
From the bottom to top to create a legacy  
Nobody can ever stop me
