

I'm in town tonight, wanna go for a ride?
(Only you and me and the lights)
Only you and me and the lights
Have been missing this
Wasting time like when we were kids
Your voice always made me feel home

Tiptoein' out the door
Your parents sleep in first up
Don't laugh too loud now
Don't wake the neighbour's dog now

Tomorrow's a new day
We never want to grow up, eh (Eh, eh, eh)
There's a sparkle in my eyes
It's because you're by my side

Come closer, yeah, come closer to me (Huh)
Wanna get high from a beam
There's a sparkle in my eyes
It's because you're by my side

Last night, I think I realised somethin'
(What you have in mind?)
(All I want is to have a movie night)
I talk bad about people
(But I don't really mean it)

Fall asleep on a rooftop
Missed the alarm for your new job
Let's get in, let's get in
Let's get in the car now

You know, when people don't speak their minds
Nobody ever bursts out and cries
Though there are so many reasons for it (Huh)
Just turn on, yeah, turn on your TV, boy

Come closer, yeah, come closer to me (Closer)
Wanna get high from a beam
There's a sparkle in my eyes
It's because you're by my side

Come closer, yeah, come closer to me (Huh)
Wanna get high from a beam
There's a sparkle in my eyes
It's because you're by my side (By my side, by my side)
