

You Will Shoot

Bazzazian

Summer fragrance
Garden of Nile
You made promises to me
Like you talk to a child

It was hidden around us
We got in your car
Flickering lights, yeah
That's what we are

Pull out the gun
I know you will shoot
I know, you know
They know it too
Who's gonna save you?

Aim at my heart
Have no more use
I know, I know that you know, yeah
That you will shoot
Who's gonna save you?

I know the language and
Lemon scent
I feel like a stranger
On this planet

Driving fearless into
The setting sun
Sweat on the skin that I
Didn't fit in

Summer fragrance
Garden of Nile
You made promises to me
Like you talk to a child

It was hidden around us
We got in your car
Flickering lights, yeah
That's what we are

Aim at my heart
Have no more use
I know, I know that you know, yeah
That you will shoot
Who's gonna save you?

Aim at my heart
