Bazzi

Uh oh-oh-oh-oh  
(Watch out)

Wanna give you what you like  
Keep you up all night (alright, alright)  
It ain't nothin but a flight (let's fly)  
You exactly what I need  
Miss lemonade how you get so sweet  
Think I met you in a dream (goodnight)

I been looking for your heart  
Million miles from where you are  
Say you'll hold on tight and you won't let go  
You could have the world 'cause it's all for you oh-oh-oh-oh  
Anything you want  
Anything you need (I got you)  
Anything you want  
(I got you)

I can buy your mom a crib  
I can take your best friends on a trip  
We could show 'em how we live (so nice) so nice uh-uh  
Lot of faces in the room  
But all that I can see is you  
And you can have what you like when (you're mine) you're mine

Yeah I been looking for your heart  
Million miles from where you are  
Say you'll hold on tight and you won't let go  
You could have the world 'cause it's all for you oh-oh-oh-oh  
Anything you want  
Anything you need (I got you) ooh  
Anything you want  
(I got you)  
Anything you want (anything you want)  
Anything you need (anything you need) ooh  
Anything you want (baby, please don't go)  
(I got you)  
Got you yeah
