

Crazy

Bazzi

All you care's about the scene
So consumed with the American dream
Tryna take a flick with me
Posted up and let the whole world see

I know your type, I do
I know your type, I do
Inside this city, I see people every day like you
I know your type, I do
I know your type
So excuse my insensitivity

Bitch, you crazy
How'd you get so out of your mind?
Tell me, baby
When did this get so out of line?
Don't understand, it's so wild
It's like a child that's in denial
Bitch, you crazy (What?)
How'd you get so out of your mind?
Mind, mind, mind

A world on fire and you couldn't care less
'Til we can't take a breath (Oh no)
And the air in our chest is some air full of death
Think I've lost my mind, I've got no fuckin' clue
Took a look inside and I guess I'm just like you

I know your type, I do
I know your type, I do
Inside the city, I see people every day like you
I know your type, I do
I know your type
So excuse my insensitivity

Bitch, you crazy
How'd you get so out of your mind?
Tell me, baby
When did this get so out of line?
Don't understand, it's so wild
It's like a child that's in denial
Bitch, you crazy
How'd you get so out of your mind?
Mind, mind, mind
