

Slide with me, ride with me, get high with me
Know that I like it when you're next to me
Especially like sexually
'Cause you know that I'm fuckin' with you heavily
Your energy is heavenly
Don't spend a second trippin' on my enemies
'Cause they envy me and my energy
You know what I'm focused on

I'm feeling like a star
And if you think it, then you are
Put the focus back on me
Cut out negativity
Now I fuckin' live my dreams
Whatever I imagine
I know that shit can happen
Yeah, my energy on dragon
Burn it down and I start laughin'
Turn the ashes into magic, yeah, yeah

Take another hit, I'm in the sky
Nothing takes me higher than my mind
Ask about the shit, I'll let you know
Yeah, this the type of shit that free your soul

Slide with me, ride with me, get high with me
Know that I like it when you're next to me
Especially like sexually
'Cause you know that I'm fuckin' with you heavily
Your energy is heavenly
Don't spend a second trippin' on my enemies
'Cause they envy me and my energy
You know what I'm focused on
