

Holdin On

Bazzi

With sugar on your skin it pulls me in
Won't you stay here for a while?
I know your trust in me is paper thin
But baby, you look so good in your denial

Tried to run away
Yeah, we were moving faster
You fell in my arms
It was a beautiful disaster
I don't wanna feel the way I feel
When I'm without you

I'm just holdin' on
I'm just holdin' on
To you
I'm just holdin' on (I'm just holdin' on)
I'm just holdin' on (I'm just holdin' on)
To you

Something 'bout the way of [?]
Even [?]
Never not expecting your call
But if you do, can we talk about nothing
And let nothing turn to something, yeah

Darling, novocaine (Darling, novocaine)
Can you wash away the pain? (Can you wash away the pain?)
Know I said I'll be okay (Know I said I'll be okay)
But I need you more than you know

Tried to run away
Yeah, we were moving faster
You fell in my arms
It was a beautiful disaster
I don't wanna feel the way I feel
When I'm without you

I'm just holdin' on
I'm just holdin' on
To you
I'm just holdin' on (I'm just holdin' on)
I'm just holdin' on (I'm just holdin' on)
To you
