

## Human (Cocaine)

Bazzi

But it turns whole world loves to do cocaine  
And the things they teach us kids in school and real life ain't  
the same  
So what can you do when you can't control the rain?  
I don't know (I'm just human)  
I don't know (I'm just human)

Turns out the heart only heals with a little pain  
And all the things I lost along the way, never needed anyway  
So what can you do when you can't control the rain?  
I don't know (I'm just human)  
I don't know (I'm just human)

I don't know (I'm just human)  
I don't know (I'm just human)
