

# Middle Man

Bazzi

I been running round in circles for some time  
Looking for things I can't believe again  
Away from your lies, the lies, your lies  
I accept there might be nowhere to confide  
I just might end up alone again  
Inside the night, the night, the night

It's why I'm working up the price  
Like a middle man, like a middle man  
I'm working up the price  
Like a middle man, like a middle man  
Late nights, I go get me some  
Keep me up till the morning sun  
You know that I need you  
I'm working up the price like a middle man  
Like a middle man  
Oh, you

Walk the line, I walked the line, did it all for you  
But I lost myself in a cloudy sky, in altitude  
But I blame myself on my own attraction  
I chase cheap thrills for my satisfaction  
I'll take the night again

It's why I'm working up the price  
Like a middle man, like a middle man  
I'm working up the price  
Like a middle man, like a middle man  
Late nights, I go get me some  
Keep me up till the morning sun  
You know that I need you  
I'm working up the price like a middle man  
Like a middle man  
Oh, you
