

# Sober

Bazzi

I don't smoke cigarettes  
But I know you like to  
So I face an entire pack  
Just to be there with you

And I never fall for girls  
But you got me tripping  
Running your hand through my curls  
All my worries missin'

Don't know if it's the Hennessy  
That's got you in your honesty  
Oh, I just hope you still mean what you say  
When the sun comes up

Oh, I hope it's not the alcohol  
That makes me think I want it all  
Oh, I just hope I still mean what I say  
When the night is up

Will I want you when I'm sober? Sober, sober  
Will I want you when it's over? Over, over  
Will you want me when you're sober? Sober, sober  
Will you want me when it's over? Over, over, yeah

Late night up in the hills  
Wish this would last forever  
Thinking I want this real  
Feelings can't be misjudged

Don't know if it's the Hennessy  
That's got you in your honesty  
Oh, I just hope you still mean what you say  
When the sun comes up

Oh, I hope it's not the alcohol  
That makes me think I want it all  
Oh, I just hope I still mean what I say  
When the night is up

Will I want you when I'm sober? Sober, sober  
Will I want you when it's over? Over, over  
Will you want me when you're sober? Sober, sober  
Will you want me when it's over? Over, over, yeah

Morning comes  
Will you still want me to stay?  
To stay, to stay

Will I want you when I'm sober? Sober, sober  
Will I want you when it's over? Over, over  
Will you want me when you're sober? Sober, sober  
Will you want me when it's over? Over, over, yeah
