

something bout april

Bazzi

Now I'm way off them drugs need your kisses and hugs
Used to roll with them thugs but for you, I'm so nice
Now I dream of your eyes when I'm inside your thighs
Tend to tell all these lies but this time, I swear I'm trying
So don't say goodbye this time

Smoke up in the air, everybody's there
I can hear your voice calling
Didn't mean to stare, pretty brown hair
Don't worry I'm all in
Cause there's something 'bout, something 'bout
I don't wanna live, I don't wanna die wondering what could be
I don't wanna dance, I don't wanna cry
I just want you next to me
Cause there's something 'bout, something 'bout April, yeah

Now I'm gone off a tab, need your body so bad
Cigarette, take a drag, but fuck it, I'll be fine
(Oh)
Every song that I sing says your name, love the ring
But you're pulling on my strings, she knows every line
So don't say goodbye this time

Smoke up in the air, everybody's there
I can hear your voice calling
Didn't mean to stare, pretty brown hair
Don't worry I'm all in
Cause there's something 'bout, something 'bout
I don't wanna live, I don't wanna die wondering what could be
I don't wanna dance, I don't wanna cry
I just want you next to me
Cause there's something 'bout, something 'bout April
Something 'bout April
Something 'bout April, yeah
(Oh)
