

So Far So Long

BB Brunes

You're so, so far away, Love
So, so far away
No matter what they say, Girl
When there's nothing more to say

Crying so many ways for
Many, many days
You cry always too late, Girl
From so far away

You could be my friend,
Be a good friend to me,
And I think you would agree
If I give you smiles
And your problems with me
And sing I Love You

I feel my song away, Love
Cause we both know we're not sincere
Why did we change our ways, Love
While it's still the same

I feel my song away, Lo-Oh-ve
Cause I've thought you would ... (?)
You cry but it's too late, Girl
I'm on my way

You could be my friend,
Be a good friend to me,
And I Think you would agree
If I give you smiles
And your problems with me
And sing I Love You

You could be my friend,
Be a good friend to me,
Please tell me that you would agree
If I give you smiles
And your problems with me
And sing I Love You

Ooh Ooh Ooh Ooh.
