

Love Is Leaving

BBMak

There Were times I knew
But I found it hard to say
You were special in my life
Never thought you'd go away
I'll be strong, I'll get by
Without you in my life
I can see through your lies
Did you ever love me
I never found you love...

You and I know
Love is leaving
And you don't want me anymore
Why should I even try
You and I know
Love is leaving
Now you're the last thing on my mind
Someone else I will find
A memory I've left behind

If I ever made you cry
Any reason I can't find
It was lonely by your side
Like a fool I stood by you
I'll be strong, I'll get by
Without you in my life
I can see through your lies
Did you ever love me
I never found your love...

You and I know
Love is leaving
And you don't want me anymore
Why should I even try
You and I know
Love is leaving
Now you're the last thing on my mind
Someone else I will find
A memory I've left behind

Is there something I could do
Is there something I should say
Is there someone else to keep me from the night

You and I know
Love is leaving
And you don't want me anymore
Why should I even try
You and I know
Love is leaving
Now you're the last thing on my mind
Someone else I will find
A memory I've left behind

You and I know
Love is leaving
And you don't want me anymore

Why should I even try
You and I know
Love is leaving
Now you're the last thing on my mind
Someone else I will find
A memory I've left behind
