

30 Below

BBY KODIE

Yea, uh
Winter in Colorado then I'm coming back home
As soon as my tape drop, y'all better not act wrong
'Cause they do not play that shit
Boy, you'll get slapped on
And my backbone is work till the cash gone
So I do not play that shit
Boy, this real shit

This is that scraping us all, the change for the bills shit
This is that sleep on the floor and pray for a meal shit
This is the moment they broke the tools that you build wit'
And you still got popping
The wheels kept rolling, this shit is still non-stopping
I'm in Patty Mahomes mode, got all these options
And the boys that y'all going fo' know all y'all plotting
So y'all better watch- y'all better watch y'all motherfucking mouth, bitch
If a lame in this bitch, better bounce him
I'm the one who put the water in the fountain
He the greatest ever, you don't needa announce him
Offshore bank account, money and accountant
And if yo spot looking nice then renounce it
'Cause the boy here made it up the mountain
And the one that's after me gon' have to take it from me
For a drink out the fountain (Okay)

Yea, uh
Winter in Colorado then I'm coming back home
As soon as my tape drop, y'all better not act wrong
'Cause they do not play that shit
Boy, you'll get slapped on
And my backbone is work till the cash gone
So I do not play that shit
Boy, this real shit

I do not play that shit
Boy, I kill shit
This is that top of the mountain T-shirt feel shit
This is that- (Bang, bang)
Then run for the hills shit
Run of the Mill shit
Problems to deal wit'
But wait just a lil bit
I'll tell you what he'll get
A house in the sky wit' his Bros
Let's see how he fly when it blows
And I'm more alive when these niggas come at my neck
So let's go
Send me a threat and let's go
Taking the bets and let's go
I'll make a mess in this hoe
50 Black Jets in this hoe
I fly the fleet over y'all
I was just checking the score
I seen that half of y'all died
So this is your message for hope
I'm sending the prayer in bold

I'm stretching the cold
I want everybody to feel it
I'm blessed and I know
And I know y'all niggas watching, I'm letting it go
And I'm letting it blow
And I know, watching from the sideline taking a toll
It's taking a toll, it's taking a toll
It's taking a toll, season (Let's go)

Looking, going after something
You want to love me? don't go
Know you're feeling lucky
Going after something
You want to love me? don't go
Know you're feeling lucky
Going after something
You want to love me? don't go
Know you're feeling lucky
