

Honeymoon On Mars

Be Bop Deluxe

I wonder if you're all alone
Beneath those diamond stars
A honeymoon on Mars
Tonight this desert world is ours
I'll meet you by the towers
For cocktails in the bar

Martian honeymoon, we're going out there in July
Martian honeymoon, we'll watch the passing show go by
Flash Gordon's ghost will never die
He's just a flash across the sky
He's just a flash across the sky
He's just a flash across the sky
He's just a flash across the sky
