Now that the sun has set
Breathe in the night's darkness
Pack it up, we have no time to waste, no time to wait
Get out there right now and make it happen
I've been on my grind for a long time
So I can seize everything in this moment

Nobody notices my big step (Hush, hush, hush)
You can't see my escape
Undercover, who expect
A and B, hold my CD
Every first place (Yeah)

Holla back, the moon shines
In the dark, we're drawing outlines
Big frames can't see explosions at their feet
Too late to notice, you can't capture us

The restless nights
And the sweat I shed
It all refined my story
I swear to
I swear to God

Gotta go, gotta wake up
Gotta go, gotta wake up
Gotta go, gotta wake up
Gotta go, gotta wake up

Turn you on (Hush-hush)
Can't wait to go (Hush-hush)
Unaware the times are changing
Turn you on (Hush-hush)
Can't wait to go (Hush-hush)
Until the moment the world finds out

I'm doing like this
I'm doing like that

I'm doing like this
I'm doing like it, "Hush"

Leaving behind only a scent
Stirring the heart, gotta go
Sometimes I feel like a ghost
I'll change you gradually on the way out

Unchanging
We're living in metafiction
Top of the top
The underdog they laughed at now wears the crown

We don't need to get into arguments
Sweep all that away, raise a peace sign
Who is first? It doesn't matter what you think
We're different like ATEEZ & BE:FIRST

Turn you on (Hush-hush)
Can't wait to go (Hush-hush)
Expanding our generation Vortex, we're the wave
Turn you on (Hush-hush)
Can't wait to go (Hush-hush, oh)

Until they can hear the stage vibrate
Oh yeah
Kiss that burning desire
Close your eyes and feel the Earth
It's a simple thing
Just between you and me
I know we can change the world
