Will you stay with me forever?

Hey, yesterday's "Sorry" I forgot to say  
Reactions that push you away  
I'm crying underneath, "I love you", yeah

I fake a smile, say I'm fine  
But you know when my heart skips a beat  
Love's a wild ride, a roller coaster  
Spinning, shaking, crashing onto you

Tonight feels like love  
Shooting stars fall so bright  
Sending you words left unsaid  
Hey, look at me baby

Hooked on you  
I say, "I love you"  
Stay right there in my view  
In every lifetime, old or new  
I'll always look for you  
Hooked on you  
All day, all night  
I'm gonna say it, so just hear me out  
A thousand times plus millions more  
I'll call your name

Will you stay with me forever? Ay  
Will you stay with me forever? Yeah

Your face glowing in the moonlight  
So beautiful, I wanna gaze all night  
You appear in my heart, it makes me hot, hot

Make me hot, hot  
I just can't admit it, I'm always torn in love, love, love, yeah

'I'm back" and "Welcome home"  
Joy bounces between us  
Blooming quietly by your side  
"I'll never leave"  
Words we don't need  
They're etched in my soul so deep

Hooked on you  
I say, "I love you"  
Stay right there in my view  
In every lifetime, old or new  
I'll always look for you  
Hooked on you  
All day, all night  
I'm gonna say it, so just hear me out  
A thousand times plus millions more  
I'll call your name

Please  
Tears running down  
Prayers falling out  
I'll wipe it all away  
Just call my name  
I'll hold you close  
So you won't cry alone

Hooked on you  
I say, "I love you"  
Stay right there in my view  
In every lifetime, old or new  
I'll always look for you  
Hooked on you  
All day, all night  
I'm gonna say it, so just hear me out  
A thousand times plus millions more  
I'll call your name

Will you stay with me forever?  
Will you stay with me forever? (Forever)  
Stay with me forever
