Oh, Oh, Oh... Enemy Fire

Who's a friend, who's an enemy
Because sometimes it looks the same to me
But looks can be pleasing, yet so deceiving
Sweet words from a serpent's tongue
It's like playing with a loaded gun
Who knows what truth is
How do you prove it
I swear I see you watching me, well

Oh, Oh, Oh Come a little closer Oh, Oh, Oh You can be my solider Oh, Oh, Oh Keeping me save from all who conspire Enemy Fire Oh, Oh, Oh I'm looking for some shelter Oh, Oh, Oh From the helter skelter Oh, Oh, Oh Just keep me away from all who conspire Enemy Fire Oh, Oh, Oh... Enemy Fire (2x)

Burn a hole through the plastic crowd
Because I've been trying to find the way out
It's so confusing but never amusing
Sweet smiles in the aftermath
Turn and whispering behind my back
I need an ally to guard the nighttime
Someone to keep me from these crazies

Oh, Oh, Oh Come a little closer Oh, Oh, Oh You can be my solider Oh, Oh, Oh Keeping me save from all who conspire Enemy Fire Oh, Oh, Oh I'm looking for some shelter Oh, Oh, Oh From the helter skelter Oh, Oh, Oh Just keep me away from all who conspire Enemy Fire Oh, Oh, Oh... Enemy Fire (2x)

All around me I here cries And bones are falling from the skies Can't you help me save that life (Oh, Oh, Oh... Enemy Fire)

Oh, Oh, Oh

Come a little closer

Oh, Oh, Oh

You can be my solider

Oh, Oh, Oh

Keeping me save from all who conspire

Enemy Fire

Oh, Oh, Oh

I'm looking for some shelter

Oh, Oh, Oh

From the helter skelter

Oh, Oh, Oh

Just keep me away from all who conspire  $% \left( 1\right) =\left( 1\right) \left( 1\right)$ 

Enemy Fire

Oh, Oh, Oh...

Enemy Fire (2x)

Oh, Oh, Oh...

Enemy Fire (2x)
