

## Are You Sure

beabadoobee

You say you understand  
Are you sure, are you sure?  
You say you've been to Mars before  
Are you sure, are you sure?

It's funny for you  
My state stays the same in outer space  
It's funny for you  
It's obvious you've never felt this way  
It's pretty shit  
My brain's alone and no one understands

You think you know my brain  
Are you sure, are you sure?  
You think you know just what to say  
Are you sure, are you sure?

It's funny for you  
My state stays the same in outer space  
It's funny for you  
It's obvious you've never felt this way  
It's pretty shit  
My brain's alone and no one understands

So talk to me again  
You seem to understand  
You claim to say its fine  
But you never really know where I am  
Why  
Why  
Why  
Why

It's funny for you  
My state stays the same in outer space  
It's funny for you  
It's obvious you've never felt this way  
It's pretty shit  
My brain's alone and no one understands
