

# California

beabadoobee

Spending too much time out of California  
And for all this time, I'll be waiting for you  
Won't you call me a cab so I can finally get back?  
Never felt that  
I've never felt that

Always the same from the inside  
Wanted a change, it took a big fight  
Calling it bluff, you'll see it real-time  
Wish you could see it's been a rough ride  
I swear I tried  
I swear I tried

Got a fragile heart, always thought you knew that  
And you said from the start, guess that's how we do that  
Now you're stuck in the past, I'm tired of living so fast  
It's not the plan  
You wouldn't understand

Always the same from the inside  
Wanted a change, it took a big fight  
Calling it bluff, you'll see it real-time  
Wish you could see it's been a rough ride  
I swear I tried  
I swear I tried

Keeping it quiet till I hit back  
And I know they won't listen till I start to crack  
And I pick up the pieces of what they left  
And I know

Keeping it quiet till I hit back  
And I know they won't listen till I start to crack  
And I pick up the pieces of what they left  
And I know

They'll never know  
They'll never know  
They'll never know  
They'll never know
