

First Date

beabadoobee

Meet me by the corner shop
The one that sells the flower pot
To tell me that you bought it with your cash
And not your mother's coupons

Build a rocket ship out of soft clay
And take me right up into space
And I can see how our day went
We'll see if we're just friends

'Cause I know you know
It's still pretty awkward
Grow some balls and just say
Where'd you wanna go, where'd you
Where'd you wanna go on our first date?
