

## Further Away

beabadoobee

Say what you want  
It's hard 'cause it sucks  
I'll just pretend to give a fuck  
Maybe then you'll try to stop

'Cause was it so hard  
To keep your mouth shut?  
They say the moon's miles away but your brain's further away

Who's laughing now?  
The shit that you used to say is out your mouth  
Guess you feel better now?

'Cause was it so hard  
To keep your mouth shut?  
They say the moon's miles away but your brain's further away

Further away  
Further away  
Further away
