One Time

beabadoobee

Didn't believe the love you gave
It takes two people to make that mistake
You never tried
You never tried

It's such a shame you don't cross my mind
But you did this one time
You did this one time

Wondering through the cheap escapes
Just avoiding all the things that I'd say
Could never admit I wasn't sure
Always fighting the feeling you were such a bore
So I got high
And I got high

It's such a shame you didn't put up a fight
But you did this one time
You did this one time
It's such a shame you don't cross my mind
But you did this one time

Keep on faking just to make it
What's the point of fixing problems?
When it's broken, we were shameless
And we never try to solve them

Keep on faking just to make it
What's the point of fixing problems?
When it's broken, we were shameless
And we never try to solve them

Keep on faking just to make it
What's the point of fixing problems?
When it's broken, we were shameless
And we never try to solve them
