

## Spacing Out

beabadoobee

Can't you see  
Can't you notice  
Somehow tough and I'm pretty broken  
Just because I'm fine doesn't mean I'm alright  
And I need someone to say okay  
I need someone to say It's fine

I'm just stressing out  
I need something to hold me  
I need something to hold me  
I'm just spacing out  
I need something to catch me  
I need something to catch me

Are you dumb are you stupid  
Is it me or is it pretty obvious  
Just because I don't talk doesn't mean I go talking  
'Cause sometimes I keep to myself  
And sometimes it's helps with my friend

I'm just stressing out  
I need something to hold me  
I need something to hold me  
I'm just spacing out  
I need something to catch me  
I need something to catch me  
I'm just stressing out  
I need something to hold me  
I need something to hold me
