

Aren't You Glad

Beach Boys

Today could be a lot of fun
And precious one
I'd feel good just to walk with you

Tonight will be a special treat
You're so sweet
And I feel good just to talk with you

You know that I been a long time needing you
You say that you been a long time needing me
And don't you know that there's so much more to come

I got a heart that just won't stop beating for you
I got a love I just can't stop feeling for you

Aren't you glad now darling there's me and you
(Tell me tell me you know what I mean) [me and you]
And I say aren't you glad with these days comes somethin' new
(Tell me tell me you know what I mean) [me and you]
And I say aren't you glad now tell me you're so glad
[Me and you]

(Doo doo doo)
Today is another day
Another way to get this feeling across to you
Tonight will be another night
That's outta sight cause I know the way to get close to you

You know that I'll be a long time loving you
I hope that you'll be a long time loving me
And don't you know that there's so much more to come

I got a heart that just won't stop beating for you
I got a love I just can't stop feeling for you

Aren't you glad now darling there's me and you
(Tell me tell me you know what I mean) [me and you]
And I say aren't you glad with these days comes summer
(Tell me tell me you know what I mean) [me and you]
And I say aren't you glad now tell me you're so glad
[Me and you]
