

My Solution

Beach Boys

(I dropped my dog)
I woke one morning about 3 AM
(In my solution)
Remembering the missing link to a formula I stumbled upon years before
(He looked so different)
Suddenly I called my faithful dog to my side and from
(In my solution)
A batch produced a sample of the formula, offering it to my dear pet

I knew I found
My peace solution
My instant aid
To evolution

(What have I done)
The affect on my faithful animal was fascinating!
(With my solution?)
His former disposition to chase the cat, the rabbits and other sundry animal
s
(He walked so gently)
Of the estate had gone. Instead, he walked gently through the dark
(He would harm no one)
And dead forest, a look of peace and calm about him
I knew I must spread the formula to all mankind

Success had come
To my solution
My instant aid
To evolution
What have I done
With my solu..?

(Damsel)
One night, walking the streets near my laboratory
(Outside my castle)
I discovered a beautiful damsel with dark flowing hair
(She looked so fair)
And convinced her to be a part of my experiment. She lay upon the table
(Her dark brown hair)
Looking so peaceful as I administered my solution
Oh, her beauty was inconceivable!

What have I done
With my solution?
My instant aid
To my solution

Oh, my solution
Sweet peace solution
Were I to lose it?
I would have loved it

Deciding to spread my solution around the world
I must have had to leave the laboratory for a little while
But, when I returned, she was gone! The damsel was gone!
I mean, not gone yet, but the heart meter said she was almost gone
She was dying! What could I do? She was almost dead!

There's the meter
The meter has now read even
The line has evened out
And you know what that means

Play it
