

Spring Vacation

Beach Boys

Driving around, living the dream
I'm cruising the town, I'm digging the scene
I'm not gonna stress, not gonna worry
Doing my best, no need to hurry.
Looking ahead, with anticipation
Making each day a new celebration.
Seems like it could go on forever
Moments we all stick together.
Years together now, get up and get up
All the hot spots in town.
Sprin vacantion
Good vibration
Summer weather
We're back together.
Here's ya money
They're not buying
It's not up to ya,
Better, aleluiah!

That's with the past, that's all behind us
We're happier now
Look what time finds us
Singing our songs is enough reason
Far many boys is what we believe in!
Sunset wouldn't last...
Sprin vacantion
Good vibration
Summer weather
We're back together.
Here's ya money
They're not buying
It's not up to ya,
Better, aleluiah!

Every night's special occasion.

Sprin vacantion
Good vibration
Summer weather
We're back together.
Here's ya money
They're not buying
It's not up to ya,
Better, aleluiah!
