

Stevie

Beach Boys

I have adored you for so long
And the vibrations are so strong
You make me feel like I belong
Oh oh oh

And when the sun goes down so slow
Eve-n-ing shadows seem to glow
I'm waiting here for you alone
Oh oh oh

Walking closer in my dreams
Closer every day, it seems
Takin' care of all the ordinary things

I'd wait the day to be with you
There's nothing else I'd rather do
It's such a special event, that's true

Yes, I know you're one of a kind
It's OK, come inside my mind
You might be surprised what you find

Do do do do do do-o
Do do do do do

Wish there was something you would do
I'm waiting for your love to break through
'Cause Stevie, I'd love to share with you
Oh oh oh

Have I been dreamin' 'bout your songs?
Why has it taken me so long
To say what's been so hard to say?
Oh oh oh

Hey, you're just around the corner
You don't have to feel like a foreigner
Won't you come a little bit closer to me?

I'd wait the day to be with you
There's nothing else I'd rather do
It's such a special event, that's true

Yes, I know you're one of a kind
It's OK, come inside my mind
You might be surprised what you find

Do do do do do do do
Do do do do do do

I have adored you for so long
And the vibrations are so strong
You make me feel like I belong
Oh oh oh

And when the sun goes down so slow
Eve-n-ing shadows seem to glow

I'm waiting here for you alone
Oh oh oh
