

Where Is She?

Beach Boys

Where can she be if she's not here with me?
Where, where can she be?
Where can she be if she's not here with me?
Where, where can she be?

Where has she gone?
She's been gone for so long
Makin' me worry and wonder
Where is she-e-e-e-e-e?
Where is she?

Wonder if she's comin' home? (I wonder if she's comin' home)
Wonder if she's all alone?
Wastin' her time, I'm losin' my mind
Wonderin' she's comin' home (wonderin' she's comin' home)

How do I feel knowin' love is away?
How, how do I feel?
No good for myself or to anyone else
Knowin' my love is away

It's just too weird when I think of it now
Why do I have to wonder?
Where is she-e-e-e-e-e?
Where is she?

Maybe she's on her way home (I wonder if she's comin' home)
And that could mean she's all alone
Thinkin' of me, I want her to be
On her way home

Where can she be if she's not here with me?
Where, where can she be?
Where can she be if she's not here with me?
Where, where can she be?
