

Won't You Tell Me

Beach Boys

Won't you tell me
What you gave the ones before me?
'Cause I wonder
'Bout the loving way you warm me
I'm not trying to pry into your last goodbye
But I feel the past within your weeping
Girl, please be patient with me
And we'll get by
No, you won't have to worry
'Cause we will be together, forever
You and I

Won't you tell me
What you did before I found you?
'Cause I worry
How you feel when I'm around you
If I hurry too much when I kiss you
It's because I'm happy to be near you
So please be patient with me
And we'll get by
No, you won't have to worry
'Cause we will be together
And it will be forever
Forever
You and I

And we won't have to worry
'Cause we will be together
And it will be forever
Forever
You and I
