

You're Still A Mystery

Beach Boys

I wake up wondering when
I might see you again
And every day, I wait and pray

Your image I can't shake
But could you ever take
A guy like me, seriously

It's happening again
(Tell me your secrets)
I thought you needed a friend (Don't try to hide)
(Give it to me straight now)
Help me through this please (What you keep inside)
(Need a little hand now)
Help me find the key (Don't play with me)
(Gotta find the key now)

You're still a mystery

You try to catch my eye
Then you pass me by
We play your game, it's all the same

Wish I knew what to do
But you don't give me a clue
What makes you tick, your magic trick

It's happening again
(Tell me your secrets)
I thought you needed a friend (Don't try to hide)
(Give it to me straight now)
Help me through this please (What you keep inside)
(Need a little hand now)
Help me find the key (Don't play with me)
(Gotta find the key now)

You're still a mystery

I see through those moods you try to fake
What's it gonna take?

Wish you'd help me find the key

It's happening again
(Tell me your secrets)
I thought you needed a friend (Don't try to hide)
(Give it to me straight now)
Help me through this please (What you keep inside)
(Need a little hand now)
Help me find the key (Don't play with me)
(Gotta find the key now)
You're still a mystery
(Tell me your secrets)
I thought you needed a friend (Don't try to hide)
(Give it to me straight now)
(What you keep inside) Help me through this please
(Need a little hand now)

Help me find the key (Don't play with me)
