

# Your Summer Dream

Beach Boys

Drive your car down to the sea  
All the while you build a scheme  
Take her hand and walk on with her  
Make it real your summer dream

Smell the warm and salty air  
See a wave reflect a beam  
Stop and find a pretty shell for her  
Make it real your summer dream

See another couple over there  
To them an ordinary day  
Soon you wonder the time has gone  
The sun has almost slipped away

Now it's gone and your alone  
In her eyes you see a gleam  
Time has come for you to show your love  
Make it real your summer dream

Make it real your summer dream  
Make it real your summer dream
