

I've been thinking in circles, I can't think straight
Nearly fell on my face in my roller blades
Honey my head is oozin', my baby's got me doing figure eights

I didn't expect anything
Why does my face turn red when you look at me?
Honey I'm bleeding out

Someone teach me to swim, help me float
Fill it up to the brim, pour it down my throat
I've got a strange feeling, my lungs are sinking down to my toes

Didn't expect anything
Why does my face turn red when you look at me?
Was it something you said?
Or is it all in my head?
Honey I'm bleeding out
Honey I'm bleeding out

Oh honey my head is oozin'
Oh honey my heart is bleeding out
Oh honey my head is oozin'
Oh honey my head is bleeding out

Was it something you said?
Or is this all in my head?
I wanna be yours
I blush red when you look in my direction
I wanna be yours

Didn't expect anything
Why does my face turn red when you look at me?
Was it something you said?
Or is it all in my head?
Honey I'm bleeding out
Honey I'm bleeding out

My heart is oozin' for you
My heart is oozin' for you
My heart is oozin' for you
My heart is oozin' for you
