Beach Fossils

I see you coming now  
It's all a rodeo  
I'm getting tangled up in the rope  
Don't wanna see you go  
You're such a waterfall  
I'm standing in the afterglow

Now  
Get back up  
And put it all behind  
And you could be happy  
Now  
Don't look back  
Just put it all behind  
And you could be happy

You're feeling out of time  
When you can't sleep at night  
It's never really easy, I know  
You tell me it's alright  
You say you're doing fine  
But when you're not  
Then where do you go?

Now  
Get back up  
And put it all behind  
And you could be happy  
Now  
Don't look back  
Just put it all behind  
And you could be happy

And you could be happy now  
And you could be happy now  
And you could be happy now  
And you could be happy now
