

## She's Dead

Beach Goons

Told me you were fine every night  
They said that you were dead and that's alright  
I stay awake at night to hear you cry  
I told them I was fine but they don't buy

And I don't want  
To see you around  
Cause you seem like  
You don't wanna try  
And I know how  
You're starting to feel  
So leave me alone

I will see you cry and I won't try  
To help and calm you down cause you just lied  
I don't believe a word that you cry  
Remember I was there when no one cared

And I don't want  
To see you around  
Cause you seem like  
You don't wanna try  
And I know how  
You're starting to feel  
So leave me alone

And I will hear you cry every night  
You wish that I will care but I just won't  
I hate when you attempt to yell and fight  
They said that you were dead and that's alright
