

Without U

Beach Goons

See my face when I slide through
Every place I will find you
Every time we fell apart
Girl I see it in the scars
Baby hold my hand, let me be your man
Let me take you away from the cold
Baby be my diamonds and gold
Wander through the dead with you caught up in my head
Thinkin Ima flip and fill my brain with lead
Ima end my life without you
Baby let's just see what these clouds do
I'm not so perfect baby yeah you worth it, come right here

Girl let me see you work it
Now we closin curtains, come right here

Don't you know you're so sexy the way you move your body up and
down
I wanna tell you how beautiful you are but you're no where to b
e found
(Hey)
I tried to protect you
From my hands you left
You broke my heart right there, all I do is stare, no you'll ne
ver fuckin care
(Hey)
I thought you were different
Telling me what is and I was wrong
I never thought of you as ignant now I'm gettin lifted, you're
in my soul
Baby I'm about to die
Baby wanna watch me die
Baby don't you wanna know why
Didn't even try
