

## Last Ride

Beach House

There she goes  
Under the sun  
Some question there

Roll her eyes  
Blonde, your hair  
Fake eyelashes

Sun came up  
Baby went black  
And she rolled over

There she goes  
Around the bend  
The sun is slow  
Unknown friend

There she goes  
The sun went bad  
The cycle ends

Who takes your name back  
When he said he's four streets from your bed  
And I'm loving and sick

There she goes  
On her bike  
Earth to the side

When you're loving most at night  
And I love you back  
When the sun rises, I--  
Who will call you back?

It's a whisper  
It's just a whisper  
It's just a whisper
