

Summers End

Beach Rats

Hit the street
Let some steam off
I'm on my favorite bike and cars are all around
They're all around
Trying to leave town

They dragged the beach
The summers end
Town is empty put away the lifeguard stands

It's so quiet now
I can barely think
All the colors gone
I can't sleep a wink
And it's quiet now
And the deepness grows
I can hit the street!

Hit the street
Let some steam off
I'm on my favorite bike and cars are all around
They're all around
They're all around
