

## Bad Seed

## Beach Weather

Locking me up  
You suffocate my love, my love  
And you're shaking me up  
But you know I never get enough

It's so good, I wanna leave you but it's tying me down  
I can't escape it, I'm captivated  
By your red eyes  
I'm hypnotized

I need your crush, your venomous lush  
Your cinnamon touch, I can't get enough  
You shoot through the room with your criminal stare  
Cutting me through and you know it ain't fair  
Baby you're a bad seed, a bad seed  
A bad seed

You're breaking me down  
I shatter with your crystal sound  
Ooh, you're something else  
I wish that I could quit you  
But I don't need you  
You're sharpened tongue  
Come get you some

I need your crush, your venomous lush  
Your cinnamon touch, I can't get enough  
You shoot through the room with your criminal stare  
Cutting me through and you know it ain't fair  
Baby you're a bad seed, a bad seed

All this love and violence  
You're killing me with silence  
Beating like a drum  
Carry on, carry on  
Swallowing your karma  
When you keep too many secrets  
None of them worth keeping  
Carry on, carry on

All this love and violence  
You're killing me with silence  
Beating like a drum  
Carry on, carry on  
Swallowing your karma  
When you keep too many secrets  
None of them worth keeping  
Carry on, carry on

Your sharpened tongue  
Come get you some

I need your crush, your venomous lush  
Cinnamon touch, I can't get enough  
You shoot through the room with your criminal stare  
Cutting me through and you know it ain't fair  
Baby you're a bad seed, a bad seed

A bad seed
